Invitation for the annual general Hristo Lukov memorial march

This February, like every year, the Bulgarian National Alliance will organize a memorial torch march in honor of general Hristo Lukov. This is one of the biggest events of the national resistance in Bulgaria and it is carried out to remember the leader of the “Alliance of the Bulgarian national legions” (the biggest nationalist organization in Bulgaria before 1944) and hero from World War I, who was murdered on 13th February 1943 by communist terrorists in front of his house in Sofia. You can read more about his life and work here.

With his political work general Hristo Lukov has proven that he was a real fighter for Europe of the fatherlands. His many contacts with nationalist statesmen and politicians from different European countries prove his personal commitment to the common European fight during the World War II against the bolshevism and the british-american imperialism. That was the reason why he got so many enemies, who finally achieved their goal by sending a communist fighting group and he was cowardly killed. Even dead, his ideas continue to live in us – the young generation of fighters for one new national and social Europe!

That’s the reason why we want to invite comrades from all European countries, who wish to join us in commemorating general Hristo Lukov and with this also to demonstrate the unity of the European nationalist youth on 9th February 2008. The expenses for the stay in Sofia will be on the cost of the Bulgarian National Alliance. Therefore please send confirmation for

your participation, the number of people, who will come and the time you wish to stay here. We will also organize a tourist sightseeing tour in Sofia for our guests.

For more information on the memorial march, the stay and the travel to Sofia, you can contact us by:

See you on 9th february 2008 in Sofia!

For Europe of the fatherlands! For Europe of the free nations!

Rules for the memorial march:

Discipline plays a great role during the memorial march for general Hristo Lukov. We have to be seen from citizens as one unity of nationalists with a common goal and not as a uncontrollable mob with torches in the hands. Therefore, please pay attention to the following rules:

- During the memorial march all mobile phones must be switched off
- Unnecessary talks are unwanted, because it's a mourning march, not a ramble. Therefore, please be quiet and also watch for the other people along you also to behave this way, especially during the official ceremonies in front of the house of general Lukov and in front of the monument for the unknown soldiers fallen for Bulgaria.
- During the memorial march is forbidden to eat, to chew gum and to smoke
- Before and during the memorial march it's absolutely forbidden to drink alcohol of any kind. Everyone who is seen to do so (or people who are obviously drunk) will be extracted from the march without further discussion
- The torches are given by the organizers and are enflamed by them. You must be careful not to burn the flags or something else while moving on the streets.
- During the memorial march it is strictly forbidden to carry flags, clothes, pins and other things, which contain inscriptions and symbols which are banned by the Bulgarian law system.
- Please, do not give any statement for journalists. There are people, who are specially prepared for this by the organizers. This of course doesn't mean that you can not say why you are taking part of this march, but talking on other topics can be used against the memorial.
- The day in which remember general Lukov is one of the coldest in the year. Therefore, we recommend you to have warm clothing, hat and gloves for your own comfort.
